

EYFS Topics

In the Early Years Foundation Stage, topics are used as hooks to engage children in a developmentally appropriate and challenging curriculum. There are carefully positioned topic hooks throughout that will be introduced throughout the year, but there is always flexibility with these to ensure they are planned based around the children's current interests and needs. The developmentally appropriate curriculum is progressively structured and sits underneath these flexible hooks. Linking with Key Stage One we launch new topic hooks with inquiry questions and get children to wonder and think big.

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
EYFS (possible starting points)	Exploring Autumn	Celebrations Light and Colour	Winter Wonderland Chinese New Year	Superheroes Changes	Minibeasts	Once Upon a Time

KS1 Topic coverage 2021-2022

In Key Stage 1 our curriculum content is grouped into a series of topics. Each topic begins with an inquiry question, designed to engage the children, and frame the learning journey through the identified outcomes.

Our curriculum is built on the 'Four Cornerstones of Learning', engage, develop, innovate and express. These four stages actively promote children's learning and thinking.

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 1	Superheroes Physical Education	Moon Zoom Design & Technology	Enchanted Woodland Science		Dinosaur Planet History	Bright Lights, Big City Geography
